

Spark Change - Concerted Engagement

Vincent Carragher, Sarah McCormack.
Civil, Structural and Environmental Engineering,
TCD.

Bridge House Hotel
18th October 2018

How do we engage with others in community?

Who?

How?

Invite you to Spark Change

Context and background

1. EPA funded research to identify factors which drive sustainability in communities
2. 20 years of review
3. Communities around the world
4. >100 factors which drive sustainability in communities
5. 17 are stakeholders
6. Reference:
http://www.epa.ie/pubs/reports/research/econ/Research_Report_238.pdf

Who?

Stakeholders

Environmental Champions

Religious Groups - Faith

Community or local groups

Project manager

Local Authority

National & Secondary Schools

Third Level Colleges

Adult Education

Exemplar Green Communities

Businesses

Business Networks

Bridging Organisations

Government Agencies

Environmental Protection Agency

European/Global Actors

Social Media

Skilled facilitator

Other people: neighbours, friends, family

	Stakeholders		Stakeholders
1	Energy/Environmental Champion	10	Exemplar/model communities
2	Religious groups	11	Business actors
3	Community/local groups	12	Networks (business, etc.)
4	Neighbours, friends, family	13	Bridging Organisations
5	Project manager	14	Government agencies
6	Local Authorities	15	European/Global actors
7	First and Second level educators	16	Social Media
8	Higher Education Institutes	17	Skilled facilitators
9	Further Education Providers		

We provide a mapping tool in our pack

Ballymun

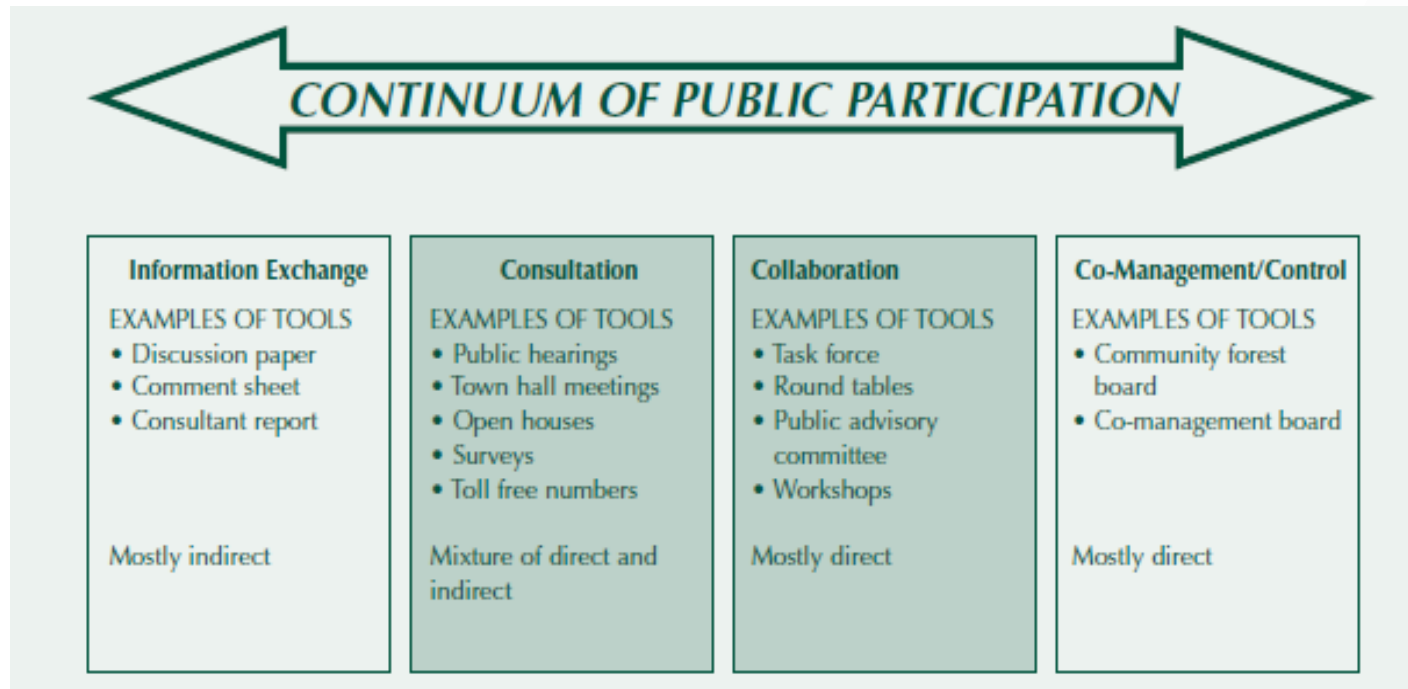

How?

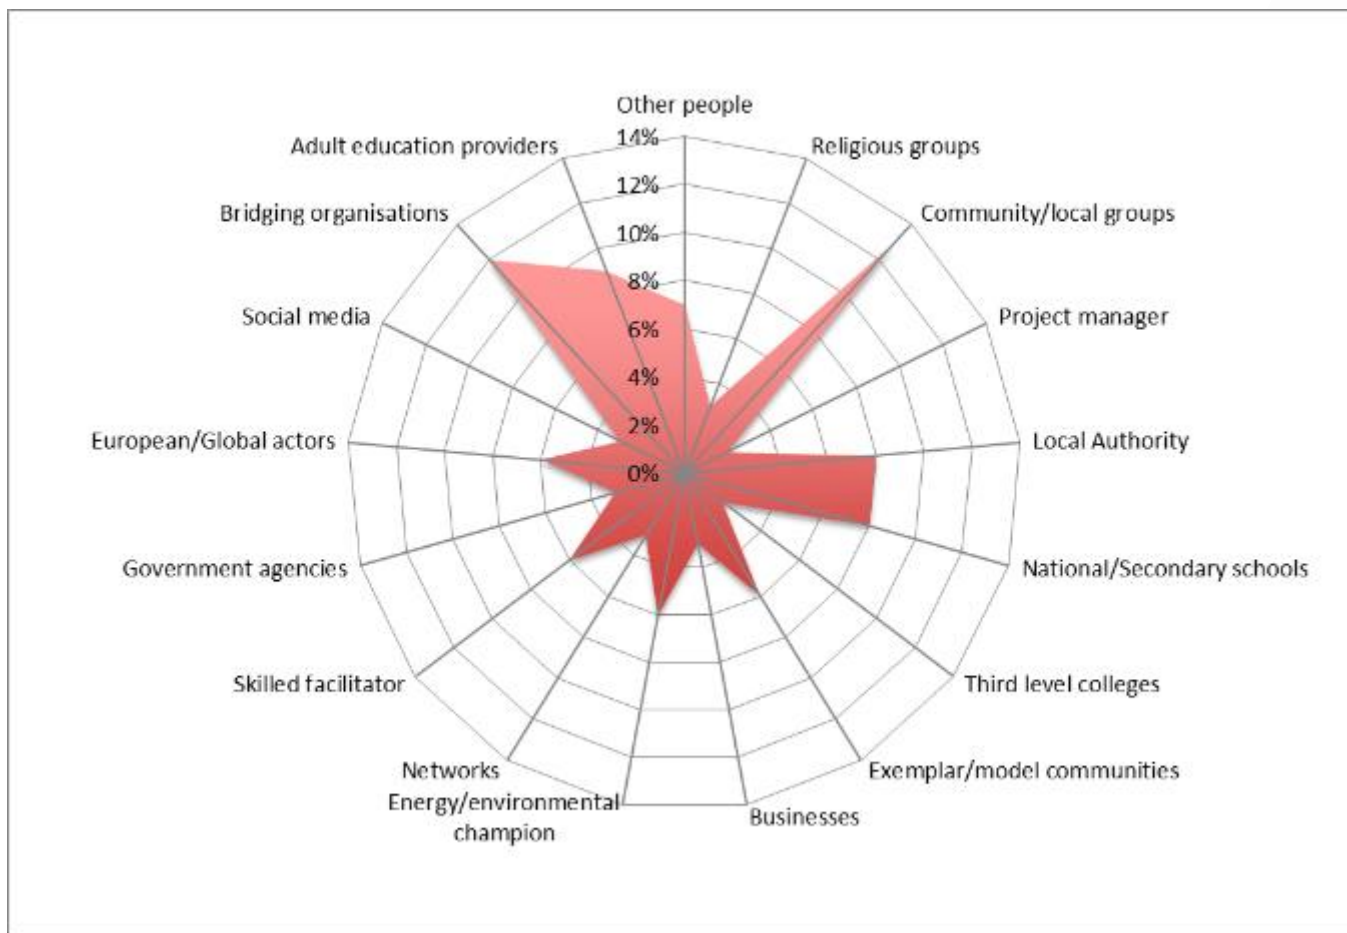

For those working WITH community

As you move to the right you engage more

Realise synergies

Profile

TRINITY COLLEGE DUBLIN
COLÁISTE NA TRÍONÓIDE, BAILE ÁTHA CLIATH

THE
UNIVERSITY
OF DUBLIN

1. Profiling is important. Motivations are diverse.
2. Assessment of characteristics and attributes.
3. Can include capacities and deficiencies.
4. Approach and engage various types differently.
5. Allows customization of activities or campaigns.
6. The SEAI competencies assessment is a good example of a type of profiling and is a very useful exercise for communities to carry out. The SEC scheme provides funding to build capacities where deficiencies exist.
7. Desktop (Census, 2016, pobalmaps@pobal.ie, deprivation index), local research and surveillance.
8. You can realise synergies and engage better.

Profile

1. In the recession, emigration had hit Drombane Upperchurch.

2. Upperchurch-
Drombane GAA club
had lost many
players

3. Motivation:
need to create
local jobs and
reverse emigration

4. Serial local
retrofits, energy
money saved and
in the economy,
local jobs
retrofitting
nationwide

5. Here citizens have taken a more constructive approach by seeking to develop technological and social solutions to their local circumstances and the problems that concern them.

Use your local circumstances to engage

Discuss, agree, and own broad concepts

1. Develop a shared vision

2. Seed, discuss,
negotiate and
create a shared
vision

3. Visions are owned by
those who create them.

4. Need to be broad enough to
engage more people.

5. Leads to local/citizen
/community control and this
strong engagement leads to
sustainability

Realise synergies with faith/religious groups

1. Faith can offer an alternative driver for social and sustainable action where significant energy savings can be achieved.

2. Moral obligation can cause individuals to act more sustainably

3. Research in Kingston University 36% energy saving

4. Westport eco-congregation

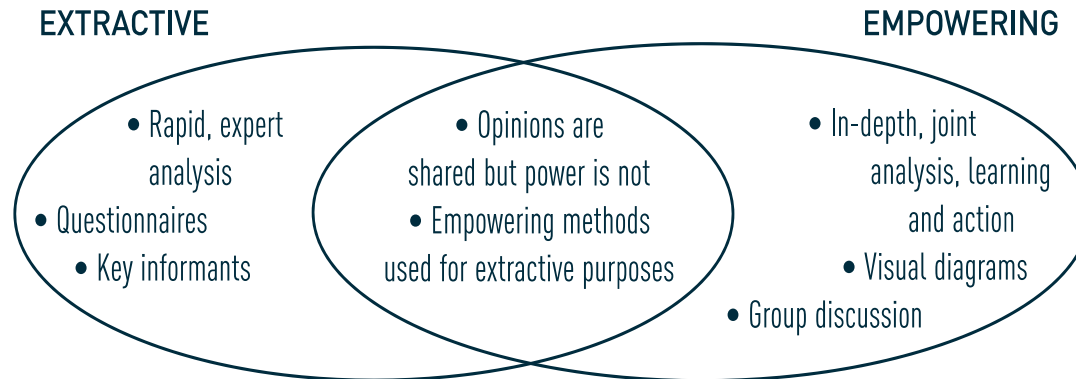

4. Empathy with those most vulnerable to climate change impacts, such as residents of developing countries or future generations, also motivates sustainability

Realise synergies with a skilled facilitator

1. If researcher or the like approaches you seek mutual benefit – not just extractive

2. Co-determine the outcomes, do not just leave it to them

3. Ask them for their support
Gain outputs which enhance your work

4. Through (i) active listening, (ii) thoughtful discussion, reflection and argument, (iii) group action towards shared, agreed goals and values, and (iv) active participation you engage

Engaging with funders engages your residents

TRINITY COLLEGE DUBLIN
COLÁISTE NA TRÍONÓIDE, BAILE ÁTHA CLIATH

THE
UNIVERSITY
OF DUBLIN

Good governance engages those around you

Organisational
structure with
a mutual ethos

Share solutions using stories

TRINITY COLLEGE DUBLIN
COLÁISTE NA TRÍONÓIDE, BAILE ÁTHA CLIATH

THE
UNIVERSITY
OF DUBLIN

Foster storytelling, design spaces for listening, and reinterpreting local and trusted solutions 35

Co-management

1. Birdhill

2. Organisationally:
number of teams – tidy
towns, energy,
biodiversity, compost etc

3. Employ administrative
or other capacity as
appropriate

4. Removing power and
knowledge differentials
engages strongly

5. Cooperation engages and grows understanding and skills,
and is often referred to as social learning.

Experiential learning activities

1. Learning by doing

2. Impact
peoples TRUST
that they are
capable of
change/action

3. Impact
their belief in
their own
ability to act
activate their
SELF-
TRUST

4. Successful
mastery
experiences
really engage
as they short
cut the
learning,
manuals

Promote the health and quality of life impacts

TRINITY COLLEGE DUBLIN
COLÁISTE NA TRÍONÓIDE, BAILE ÁTHA CLIATH

THE
UNIVERSITY
OF DUBLIN

The Energy Plus Community project in Ballynagran encourages residents to improve their health, reduce fossil fuel use, walk, cycle and buy local

Commitment

1. When individuals commit eg: agree to a small request, it often alters the way they perceive themselves. A psychological switch is engaged.

2. Eg: the act of signing a petition for a new building for the disabled, alters their attitude. They come to view themselves as someone who supports initiatives for the disabled.

3. When asked later to comply with the larger request, giving a donation, there is strong internal pressure to behave consistently (McKenzie-Mohr).

Commitment

TRINITY COLLEGE DUBLIN
COLÁISTE NA TRÍONÓIDE, BAILE ÁTHA CLIATH

THE UNIVERSITY OF DUBLIN

1. SEAI charter

2. Commits and drives engagement and sustainability

Measure and monitor your impacts

TRINITY COLLEGE DUBLIN
COLÁISTE NA TRÍONÓIDE, BAILE ÁTHA CLIATH

THE
UNIVERSITY
OF DUBLIN

This Irish community recognised as a blueprint for community sustainability by SEI, Swedish and Japanese governments and by IGES. Presented in New York this year at the High Level Political Forum. Involves a community, CBOs, a skilled facilitator and University of Limerick researchers. Householders are facilitated to measure their ecological footprint and then to reflect on their learning and share their low carbon solutions as stories. They interact, craft new knowledge and advance the development of their understanding within a co-learning experience. Trusted messages.

Remove barriers

1. Barriers to action will deflate your residents
2. Remove barriers so that they can engage in the activities
3. Preparing the way

Effective communication

Why can't you see it's a 9

Understand those in your community - profile

Effective communication

Why can't you see it's a 9

Stimulate local conversation and internalise the message - stories

Why can't you see it's a 9

Establish Norms

“the majority of your neighbours are undertaking energy-saving actions every day and this is making our community in xxxx a really sustainable place”

SPARK CHANGE CHALLENGE

Who is it for? Communities and Community groups

What is it for? Provide help with their sustainability actions

How will we do this?

1. Stories
2. Are you for for a challenge?

When? From today – April 2019 (and after an annual challenge)

LOCAL ACTION, GLOBAL IMPACT

Spark Change

“You cannot get through a single day without having an impact on the world around you. What you do makes a difference, and you have to decide what kind of difference you want to make.”

- Jane Goodall
